**TO WHOM IT MAY CONCERN:**

**LETTER OF RECOMMENDATION IN FAVOUR OF**  
**MESSRS FASTNET AFRICA BV**

I am pleased to introduce and recommend to you Messrs Fastnet Africa BV a Dutch Information Technology Firm based in the Arnhem-Netherlands and a Branch outfit in Weija, Accra, Ghana.

It is pertinent to state that Messrs Fastnet Africa BV was contracted by the Effutu Municipal Assembly-Winneba, Ghana in March, 2018 to undertake the following projects for the Assembly:

1. Network selected offices in its new building.
2. Provide Broadband Internet Service for GIFMIS and other applications.
3. Develop a Website/App.
4. Provide Support and Maintenance for ICT related issues.

Indeed, the quality of work provided was exceptional and their Internet service was comparably faster making it possible for the Assembly to utilize the GIFMIS platform with ease.

The firm paid close attention to details and was proactive in identifying developmental options that saved time and money, making the Assembly emerging as one of the best in the central region during assessment by the Regional Co-ordinating Council.

A very well-seasoned and experienced team, with all around great customer service. The Company was always responsive to the Assembly's demands and was very proactive at solving all the project related issues.

I would therefore highly recommend Messrs Fastnet Africa BV for any Information Technology related project, large, medium or small.

Counting on your kind co-operation, please.

Thank you.

(AHMED-RUFAI IBRAHIM, PhD)  
MUNICIPAL CO-ORDINATING DIRECTOR  
for: MUNICIPAL CHIEF EXECUTIVE
